

Product Information Sheet for NR-13450

Monoclonal Anti-Influenza Virus H5 Hemagglutinin (HA), A/Vietnam/1203/2004 (H5N1), Clone 1C10 (produced *in vitro*)

Catalog No. NR-13450

For research use only. Not for human use.

Contributor:

Adolfo Garcia-Sastre, Ph.D., Departments of Medicine and Microbiology, and Global Health and Emerging Pathogens Institute, Mount Sinai School of Medicine, New York, New York

Manufacturer:

BEI Resources

Product Description:

Antibody Class: IgG2aκ

Mouse monoclonal antibody prepared against the H5 hemagglutinin (HA) of influenza virus A/Vietnam/1203/2004 (H5N1) was purified from clone 1C10 hybridoma supernatant by protein G affinity chromatography. The B cell hybridoma was generated by the fusion of Sp2/0 BALB/c mouse myeloma cells with splenocytes from mice immunized by DNA vaccination with a plasmid encoding the HA of influenza virus A/Vietnam/1203/2004 (H5N1).¹

Material Provided:

Each vial of NR-13450 contains approximately 100 µL of purified monoclonal antibody in PBS. The concentration, expressed as mg per mL, is shown on the Certificate of Analysis.

Packaging/Storage:

NR-13450 was packaged aseptically in screw-capped plastic cryovials and is provided frozen on dry ice. NR-13450 should be stored at -20°C or colder immediately upon arrival. Freeze-thaw cycles should be avoided.

Functional Activity:

NR-13450 is reactive against the H5 HA of influenza virus A/Vietnam/1203/2004 (H5N1) in ELISA, hemagglutination inhibition, indirect immunofluorescence, virus neutralization, and western blot assays.¹

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. Biosafety in Microbiological and Biomedical Laboratories. 5th ed.

Washington, DC: U.S. Government Printing Office, 2007; see www.cdc.gov/od/ohs/biosfty/bmbl5/bmbl5toc.htm.

Citation:

Acknowledgment for publications should read "The following reagent was obtained through BEI Resources, NIAID, NIH: Monoclonal Anti-Influenza Virus H5 Hemagglutinin (HA), A/Vietnam/1203/2004 (H5N1), Clone 1C10 (produced *in vitro*), NR-13450."

Disclaimers:

You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the BEI Resources Material Transfer Agreement (MTA). The MTA is available on our Web site at www.beiresources.org.
