

**Macrophage Cell Line Derived from TLR9 Knockout Mice**

**Catalog No. NR-9569**

This reagent is the property of the U.S. Government.

**Product Description:**

The murine macrophage cell line was derived using primary bone marrow cells from TLR9 (toll-like receptor 9) knockout mice. The primary bone marrow cells were immortalized by infection with the ecotropic transforming replication-deficient retrovirus J2 using techniques described in the literature.

**Lot: 70057969**

**Manufacturing Date: 18JAN2023**
