

Peptide Pool, Human Immunodeficiency Virus Type 1 (Consensus) CRF02_AG Env Region

Catalog No. HRP-20270

This reagent is the property of the U.S. Government.

Product Description:

HRP-20270 is a series of 210 peptides spanning the entire human immunodeficiency virus type 1 (HIV-1) CRF02_AG Env region (consensus). Most peptides are 15-mers, with 11 amino acid overlaps. Each peptide from BEI Resources Catalog Number HRP-20269 peptide array was pooled together and then distributed such that each vial contains 50 µg of each peptide, 10.5 mg total peptide. **Note: the vendor's lot number, K1070, appears on the vial label.**

Lot: 70060309 (K1070)

Manufacturing Date: 09FEB2023

BEI Resources is committed to ensuring digital accessibility for people with disabilities. This Certificate of Analysis contains complex tables and may not be fully accessible. Please let us know if you encounter accessibility barriers and a fully accessible document will be provided: E-mail: Contact@BEIResources.org. We try to respond to feedback within 24 hours.

Note: Peptide-specific information is provided in supporting QC documentation attached to the BEI Resources webpage.
