Monoclonal Anti-SARS-CoV E Protein (Similar to 472C)

Catalog No. NR-614
This reagent is the property of the U.S. Government.

For research use only. Not for human use.

Contributor:
Larry J. Anderson, M.D., Chief, Respiratory and Enteric Virus Branch, Division of Viral and Rickettsial Diseases, National Center for Infectious Disease, Centers for Disease Control and Prevention, Atlanta, Georgia.

Product Description:
Antibody Class: IgM
Mouse monoclonal antibody to the small envelope (E) protein of the Urbani strain of SARS-CoV was purified by ammonium sulfate precipitation from a mouse B cell hybridoma. The mouse B cell hybridoma was generated by the fusion of SP2/0 myeloma cells with immunized BALB/c splenocytes.

Material Provided:
Purified monoclonal antibody is provided frozen at 0.5 mg per vial in phosphate buffered saline (pH 7.4) containing 0.05% Proclin300. The concentration, expressed as mg per mL, is shown on the Certificate of Analysis.

Packaging/Storage:
NR-614 was packaged aseptically in glass serum vials. Purified antibody should be stored at -20°C or colder immediately upon arrival. Repeated freeze-thaw cycles should be avoided. Purified antibody may be stored at 2 to 8°C for up to one month.

Functional Activity:
NR-614 was purified from the same hybridoma as Subclone 472C. The specificity of the antibody was determined by Indirect Fluorescent Antibody staining of transfected Vero cells expressing SARS-CoV E protein. In neutralization studies, the monoclonal antibody did not neutralize SARS-CoV infection of Vero E6 cells.

Note:
NR-614 may have some cross-reactivity to the SARS-CoV M protein.

Citation:
Acknowledgment for publications should read “The following reagent was obtained through the NIH Biodefense and Emerging Infections Research Resources Repository, NIAID, NIH: Monoclonal Anti-SARS-CoV E Protein (Similar to 472C), NR-614.”

Biosafety Level: 1

Disclaimers:
You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the BEI Resources Material Transfer Agreement (MTA). The MTA is available on our Web site at www.beiresources.org.

While BEI Resources uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government make any warranties or representations as to its accuracy.
