

***Bacillus anthracis* Hypothetical Protein p5303 (Locus\_Tag: BA\_5699) with N-terminal Histidine Tag, Recombinant from *Escherichia coli***

**Catalog No. NR-12130**

This reagent is the tangible property of the U.S. Government

**For research use only. Not for human use.**

**Contributor:**

Alison D. O'Brien, Ph.D., Chairperson, and James F. Sinclair, Ph.D., Laboratory Supervisor, Department of Microbiology and Immunology, Uniformed Services University of the Health Sciences, Bethesda, Maryland

**Product Description:**

NR-12130 is a recombinant form of the *Bacillus anthracis* (*B. anthracis*) hypothetical protein p5303 (locus\_tag: [BA\\_5699](#)) which is known to be expressed in the exosporium.<sup>1,2</sup> The amino acid sequence includes 1) an N-terminal hexahistidine tag, 2) a thrombin cleavage site and 3) amino acid residues 1 to 133 of hypothetical protein p5303 from the Ames strain of *B. anthracis* (GenPept: AAP29331).<sup>3</sup> The recombinant protein was expressed in *Escherichia coli* and purified by nickel affinity chromatography. NR-12130 has a theoretical molecular weight of approximately 17 kilodaltons. The predicted amino acid sequence of NR-12130 is shown below in Table 1.

**Material Provided:**

Each vial contains approximately 10 µg of NR-12130 in PBS. The concentration, expressed as mg per mL, is shown on the Certificate of Analysis.

**Packaging/Storage:**

NR-12130 was packaged aseptically in cryovials. The product is provided frozen on dry ice and should be stored at -80°C or colder immediately upon arrival. Freeze-thaw cycles should be avoided.

**Functional Activity:**

NR-12130 reacts with rabbit polyclonal antibody to *B. anthracis* hypothetical protein p5303 (BEI Resources NR-12131) as shown by Western blot analysis.

**Citation:**

Acknowledgment for publications should read "The following reagent was obtained through BEI Resources, NIAID, NIH: *Bacillus anthracis* Hypothetical Protein p5303 (Locus\_Tag: BA\_5699) with N-terminal Histidine Tag, Recombinant from *Escherichia coli*, NR-12130."

**Biosafety Level: 1**

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. [Biosafety in Microbiological and Biomedical Laboratories](#). 5th ed. Washington, DC: U.S. Government Printing Office, 2007; see [www.cdc.gov/od/ohs/biosfty/bmb15/bmb15toc.htm](http://www.cdc.gov/od/ohs/biosfty/bmb15/bmb15toc.htm).

**Disclaimers:**

You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the BEI Resources Material Transfer Agreement (MTA). The MTA is available on our Web site at [www.beiresources.org](http://www.beiresources.org).

While BEI Resources uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government make any warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. Neither ATCC® nor the U.S. Government warrants that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, use and disposal. ATCC® and the U.S. Government are not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, the U.S. Government, ATCC®, their suppliers and contributors to BEI Resources are not liable for damages arising from the misidentification or misrepresentation of products.

**Use Restrictions:**

**This material is distributed for internal research, non-commercial purposes only.** This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before first commercial sale.
