

Escherichia coli Virulence Target *astA* Primers

Catalog No. NR-12206

This reagent is the tangible property of the U.S. Government.

Product Description: NR-12206 contains forward and reverse primers that specifically amplify a region of the virulence target heat stable enterotoxin I, *astA*, found on the chromosome of enterohemorrhagic, enteropathogenic, enterotoxigenic and enteroaggregative *Escherichia coli* (*E. coli*; EHEC, EPEC, ETEC and EAggEC, respectively). Note: *E. coli* 12-Target Multiplex PCR 10X Buffer (BEI Resources NR-13440) will be provided with your shipment of NR-12206.
