

Polyclonal Anti-Puumala Virus, P360, Nucleocapsid Protein (immunoglobulin G, Rabbit)

Catalog No. NR-9675

For research use only. Not for human use.

Contributor:

NIH Biodefense and Emerging Infections Research Resources Repository, NIAID, NIH

Product Description:

Polyclonal antiserum to the nucleocapsid (N) protein of the P360 strain of Puumala virus was produced by immunization of New Zealand white rabbits with Puumala virus N protein in PBS buffer with Complete Freund's Adjuvant for the primary immunization and with Incomplete Freund's Adjuvant for the subsequent immunizations. Immunoglobulin G was purified from the antiserum by Protein G affinity chromatography.

Material Provided:

Each vial contains approximately 10 mg of NR-9675 in PBS buffer, pH 7.4. No preservative has been added. The concentration, expressed as mg per mL, is shown on the Certificate of Analysis.

Packaging/Storage:

NR-9675 was packaged aseptically in screw-capped plastic cryovials. The product is provided frozen and should be stored at -20°C or colder for prolonged storage. NR-9675 can be stored at 4°C for up to one year. Repeated freezing and thawing is not recommended. If slight turbidity occurs, clarify the serum by centrifugation before use.

Functional Activity:

NR-9675 is reactive with the N protein of the P360 strain of Puumala virus (available as BEI Resources NR-9671) as determined by Western Blot and ELISA.

Citation:

Acknowledgment for publications should read "The following reagent was obtained through the NIH Biodefense and Emerging Infections Research Resources Repository, NIAID, NIH: Polyclonal Anti-Puumala Virus, P360, Nucleocapsid Protein (immunoglobulin G, Rabbit), NR-9675."

Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. Biosafety in Microbiological and Biomedical Laboratories. 5th ed. Washington, DC: U.S. Government Printing Office, 2007; see www.cdc.gov/od/ohs/biosfty/bmb15/bmb15toc.htm.

Disclaimers:

You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the BEI Resources Material Transfer Agreement (MTA). The MTA is available on our Web site at www.beiresources.org.

While BEI Resources uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government make any warranties or representations as to its accuracy.
