Product Description:

**Virus Classification:** Flavivirus, Flaviviridae
**Species:** Dengue virus type 2
**Strain/Isolate:** K0049
**Original Source:** Dengue virus type 2 (DEN-2), K0049 was isolated in 1995 from a human diagnosed with dengue hemorrhagic fever in Kamphaeng Phet, Thailand.1,2

Dengue virus causes the most common vector-borne viral disease of humans, with over 50 million cases in tropical and subtropical regions each year.3 The disease is now endemic in over 110 countries in the world, with Southeast Asia and the Western Pacific being the most seriously affected. Dengue disease is caused by one of four closely related, but antigenically distinct, serotypes (designated DEN-1 to -4).3 Infectious disease results from a nonspecific viral syndrome to severe and fatal hemorrhagic disease.4,5 Humans are the major host of dengue virus, with Aedes aegypti mosquitoes the principal vectors.

**Material Provided:**
Each vial contains approximately 1 mL of cell lysate and supernatant from *Aedes albopictus* clones C6/36 cells (ATCC® CRL-1660™) infected with DEN-2, K0049.

**Note:** If homogeneity is required for your intended use, please purify prior to initiating work.

**Packaging/Storage:**
NR-12215 was packaged aseptically in screw-capped plastic cryovials. The product is provided frozen and should be stored at -70°C or colder immediately upon arrival. For long-term storage, the vapor phase of a liquid nitrogen freezer is recommended. Freeze-thaw cycles should be avoided.

**Growth Conditions:**

**Host:** Aedes albopictus clone C6/36 cells (ATCC® CRL-1660™)

**Growth Medium:** Minimum Essential Medium with Earle’s salts supplemented with 2% irradiated fetal bovine serum, 2 mM L-glutamine and 1 mM sodium pyruvate

**Infection:** Cells should be 80% to 90% confluent (not 100% confluent)

**Incubation:** 7 to 10 days at 28°C and 5% CO2

**Cytopathic Effect:** Sloughing of cells

**Use Restrictions:**

This material is distributed for internal research, non-commercial purposes only. This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before first commercial sale.

**Notes:**

- If homogeneity is required for your intended use, please purify prior to initiating work.
- Note to users:
  - For research use only. Not for human use.
  - Use this product for research use only. It is not intended for human use.
