

## Hepatitis B Virus Surface Antigen, Subtype adr (HB<sub>s</sub>Ag/adr)

### Catalog No. NR-3822

This reagent is the property of the U.S. Government.

### Lot (NIAID Catalog) No. V-803-003-027

### For research use only. Not for human use.

#### Contributor:

National Institutes of Allergy and Infectious Diseases (NIAID),  
National Institutes of Health

#### Product Description:

Reagent: Hepatitis B virus surface antigen, subtype adr (HB<sub>s</sub>Ag/adr)

Source: Whole human serum

Dilution for Use: Undiluted

NIAID Class: Research Reference Reagent

The production of hepatitis B surface antigen with subtype adr specificity was intended to fill needs for research reference reagents. This reagent is not intended for diagnostic purposes or for routine examination of blood. This antigen preparation will, however, provide reference material for determining the subtype specificity of HB<sub>s</sub>Ag containing sera.

Note: NR-3822 is a whole human serum preparation and not a suspension of purified particles. It, therefore, contains human serum proteins, and this should be recognized when utilizing NR-3822 in any test.

#### Material Provided/Storage:

Volume: 0.5 mL

Storage Temperature: -80°C or colder

Note: BEI Resources was asked to distribute this antigen preparation from NIAID's historical repository. Recent characterization information is not yet available.

#### Citation:

Acknowledgment for publications should read "The following reagent was obtained through the NIH Biodefense and Emerging Infections Research Resources Repository, NIAID, NIH: Hepatitis B Virus Surface Antigen, Subtype adr (HB<sub>s</sub>Ag/adr), NR-3822."

#### Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. Biosafety in Microbiological and Biomedical Laboratories. 5th ed. Washington, DC: U.S. Government Printing Office, 2007; see [www.cdc.gov/od/ohs/biosfty/bmbl5/bmbl5toc.htm](http://www.cdc.gov/od/ohs/biosfty/bmbl5/bmbl5toc.htm).

#### Disclaimers:

You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the BEI Resources Material Transfer Agreement (MTA). The MTA is available on our Web site at [www.beiresources.org](http://www.beiresources.org).

While BEI Resources uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government make any warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. Neither ATCC® nor the U.S. Government warrants that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, use and disposal. ATCC® and the U.S. Government are not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, the U.S. Government, ATCC®, their suppliers and contributors to BEI Resources are not liable for damages arising from the misidentification or misrepresentation of products.

#### Use Restrictions:

**This material is distributed for internal research, non-commercial purposes only.** This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if license is required. U.S. Government contractors may need a license before first commercial sale.
