

Invitrogen Corporation

Limited Use Label License

This product is subject of one or more of U.S. Patent Nos. 5,888,732, 6,143,557, 6,171,861, and 6,270,969, and/or pending U.S. and foreign patent applications owned by Invitrogen Corporation. The transfer or purchase of this product conveys to the recipient or buyer the non-transferable right to use the product and components of the product provide by TIGR in research conducted by the recipient or buyer (whether the recipient or buyer is an academic or for-profit entity). No license is conveyed under the foregoing patents to use this product with any combination sites other than those purchased from Invitrogen Corporation or its authorized distributor. The recipient or buyer cannot modify the recombination sequence(s) contained in this product for any purpose. The recipient or buyer cannot sell or otherwise transfer (a) this product (b) its components or (c) materials made using this product or its components to third party or otherwise use this product or its components or materials made using this product or its components for Commercial Purposes. The recipient or buyer may transfer information or materials made through the use of this product to specific collaborator, provided that such transfer is not for Commercial Purpose, and that such collaborator agrees in writing (a) not to transfer such materials to any third party, and (b) to use such materials and/or information solely for research and not for Commercial Purpose. Commercial Purpose means any activity by a party for consideration and may include, but not limited to: (1) use of the product or its components in manufacturing; (2) use of the product or its components to provide a service, information, or data; (3) use of the product or its components for therapeutic, diagnostic or prophylactic purposes; or (4) resale of the product or its components, whether or not such product or its components are sold for use in research. Invitrogen Corporation will not assert a claim against the recipient or buyer of infringement of the above patents based upon the manufacture, use or sale of a therapeutic, clinical diagnostic, vaccine or prophylactic product developed in research by the recipient or buyer in which this product or its components was employed, provided that neither this product nor any of its components was used in the manufacture of such product. For information on purchasing a license to this product for purposes other than research, contact Licensing Department, Invitrogen Corporation, 1600 Faraday Avenue, Carlsbad, California 92008. Phone (760) 603-7200. Fax (760) 602-6500.
