¹*B. pseudomallei*, strain 1026b was deposited by Dr. Herbert P. Schweizer of the Department of Microbiology, Immunology and Pathology, College of Veterinary Medicine and Biomedical Sciences, Colorado State University, Fort Collins, Colorado. The bacterial preparation used for extraction of genomic DNA was produced from the deposited material. Genomic DNA was extracted using proprietary technology.

²Also consistent with other *Burkholderia* species

³An extraction procedure was used that has been shown to consistently inactivate 100% of Gram-negative bacteria.
