

***Yersinia pseudotuberculosis*, Strain IP2515**

**Catalog No. NR-4372**

This reagent is the property of the U.S. Government.

**Product Description:** *Yersinia pseudotuberculosis* (*Y. pseudotuberculosis*) is a small rod-shaped, Gram-negative bacterium. It is termed pseudotuberculosis since it causes lesions in the lung that are similar to those observed during tuberculosis infection. *Y. pseudotuberculosis* infections are not frequent, but a mesenteric adenitis that mimics an acute appendicular syndrome is the most common clinical presentation.
