

## Human Immunoglobulin G-Depleted Serum

### Catalog No. NR-49447

This reagent is the property of the U.S. Government.

### For research use only. Not for human use.

#### Contributor:

BEI Resources

#### Manufacturer:

BBI Solutions, Cardiff, UK

#### Product Description:

NR-49447 is a preparation of normal off-the-clot human serum that has been 0.2 µm filtered, depleted of immunoglobulins (Ig) G, A, and M, and dialyzed into 10 mM HEPES (pH 7.5) containing 0.15 M NaCl.

#### Material Provided:

Each vial contains approximately 1 mL of IgG-depleted human serum.

#### Packaging/Storage:

NR-49447 was packaged aseptically in screw-capped plastic cryovials. It is provided frozen on dry ice and should be stored at -20°C or colder immediately upon arrival. Freeze-thaw cycles should be minimized.

#### Citation:

Acknowledgment for publications should read "The following reagent was obtained through BEI Resources, NIAID, NIH: Human Immunoglobulin G-Depleted Serum, NR-49447."

#### Biosafety Level: 1

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. Biosafety in Microbiological and Biomedical Laboratories. 5th ed. Washington, DC: U.S. Government Printing Office, 2009; see [www.cdc.gov/biosafety/publications/bmbl5/index.htm](http://www.cdc.gov/biosafety/publications/bmbl5/index.htm).

Donors of the blood samples used to produce NR-49447 were tested and found to be negative for hepatitis B surface antigen as well as for antibodies against hepatitis C virus and human immunodeficiency viruses 1 and 2. Nonetheless, users should treat this material as potentially hazardous since no test can guarantee the absence of an infectious agent. Universal precautions should always be used when handling any biological materials derived from human sources, such as NR-49447.

#### Disclaimers:

You are authorized to use this product for research use only. It is not intended for human use.

Use of this product is subject to the terms and conditions of the BEI Resources Material Transfer Agreement (MTA). The MTA is available on our Web site at [www.beiresources.org](http://www.beiresources.org).

While BEI Resources uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government makes any warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. Neither ATCC® nor the U.S. Government warrants that such information has been confirmed to be accurate.

This product is sent with the condition that you are responsible for its safe storage, handling, use and disposal. ATCC® and the U.S. Government are not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, the U.S. Government, ATCC®, their suppliers and contributors to BEI Resources are not liable for damages arising from the misidentification or misrepresentation of products.

#### Use Restrictions:

**This material is distributed for internal research, non-commercial purposes only.** This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before first commercial sale.
