

Issue Date 08-Mar-2018

Revision Date Not applicable.

Version 1

**1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING**

**Product identifier**

**Product Name** Heat-Stable Enterotoxin (STh) from Enterotoxigenic *Escherichia coli*  
**Product Code** NR-50765

**Other means of identification**

**UN/ID No.** UN3172  
**Synonyms** Not available.

**Recommended use of the chemical and restrictions on use**

**Recommended Use** Material is authorized for research, non-commercial purposes only.  
**Uses Advised Against** Not available.

**Details of the supplier of the safety data sheet**

**Supplier Address**

BEI Resources  
 10801 University Blvd.,  
 Manassas, VA,  
 USA, 20110-2204

**Emergency telephone number**

**Company Phone Number** (800) 359-7370/ (703) 365-2727  
**24 Hour Emergency Phone Number** Chemtrec (US): 1-800-424-9300.  
 Domestic: (703) 365-2710.  
 International: +1(703)-527-3887.

**2. HAZARDS IDENTIFICATION**

**Classification**

**Health Hazards**

Not classified.

**Physical Hazards**

Not classified.

**OSHA Regulatory Status**

This chemical has biological/pharmaceutical effects on animal or human bodily functions or systems, but does not reach the criteria of any specific GHS classification label. Therefore, it is considered hazardous by "other hazards" but not classified (29 CFR 1910.1200; Revision 3).

**Label elements**

**Emergency Overview**

Normal precautions common to safe manufacturing practice should be followed in handling and storage.

**Appearance** Clear liquid.

**Physical State** Liquid.

**Odor** Not available.

**Precautionary Statements - Prevention**

Do not eat, drink, or smoke when using this product.

Wash hands and face thoroughly after handling.

#### Precautionary Statements - Response

IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.  
Specific treatment (see Product Sheet and seek Medical Treatment immediately).  
Rinse mouth.

#### Precautionary Statements - Storage

Store locked up.

#### Precautionary Statements - Disposal

Dispose of contents/container in accordance with local/regional/national/international regulations.

#### Hazards not otherwise classified (HNOC)

Biosafety Level 2

#### Other information

Not available.

### 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200; Revision 3).

<b>Common name</b>	ETEC Heat-stable enterotoxin (STh), 0.5 mL at 0.025 mg/mL.
<b>Synonyms</b>	Not available.
<b>Chemical Family</b>	Protein.
<b>Chemical nature</b>	Bacterial toxin.

Chemical Name	CAS No.	Weight-%
Heat-stable enterotoxin	N/A	0-0.5
Sodium phosphate dibasic, anhydrous ACS	7558-79-4	8-11
Sodium dihydrogen phosphate	7558-80-7	1-2
Sodium chloride	7647-14-5	55-100

### 4. FIRST AID MEASURES

#### First aid measures

<b>Eye Contact</b>	Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention.
<b>Skin Contact</b>	Take off immediately all contaminated clothing, shoes and leather goods (e.g. watchbands, belts). Wash with plenty of lukewarm, gently flowing water for a duration of 15-20 minutes or until medical aid is available. Immediately call a POISON CENTER/doctor. Wash contaminated clothing before re-use or discard. If skin irritation occurs: Get medical advice/attention.
<b>Inhalation</b>	Remove source of exposure or move person to fresh air and keep comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER/doctor. If breathing is difficult, trained personnel should administer emergency oxygen if advised to do so by the POISON CENTER/doctor. Immediately call a POISON CENTER/doctor.
<b>Ingestion</b>	Rinse mouth. Immediately call a POISON CENTER/doctor. If breathing has stopped, immediately start cardiopulmonary resuscitation (CPR) or automated external defibrillation (AED). Treatment of fluid and electrolyte loss is usually achieved through oral rehydration.

**Most important symptoms and effects, both acute and delayed**

**Symptoms** Usually mild self-limited illness, producing watery diarrhea, abdominal cramps, low-grade fever, nausea and fatigue.

**Indication of any immediate medical attention and special treatment needed**

**Note to Physicians** Treat symptomatically.

**5. FIRE-FIGHTING MEASURES****Suitable extinguishing media**

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

**Unsuitable Extinguishing Media** None known.

**Specific hazards arising from the chemical**

Not available.

**Hazardous Combustion Products** Not available.

**Explosion data**

**Sensitivity to Mechanical Impact** None known.

**Sensitivity to Static Discharge** None known.

**Protective equipment and precautions for firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

**6. ACCIDENTAL RELEASE MEASURES****Personal precautions, protective equipment and emergency procedures**

**Personal Precautions** Wear appropriate personal protective equipment (see Section 8). Keep unnecessary personnel away. Ensure adequate ventilation, especially in confined areas.

**Environmental precautions**

**Environmental Precautions** See Section 12 for additional ecological information.

**Methods and material for containment and cleaning up**

**Methods for Containment** Prevent further leakage or spillage if safe to do so.

**Methods for Cleaning Up** Patient/Victim: Wash with soap and water. Work clothes should be laundered separately. Launder contaminated clothing before re-use. Do not take clothing home.  
Equipment/Environment: Allow aerosols to settle; wearing protective clothing, gently cover spill with paper towel and apply 1% sodium hypochlorite, starting at perimeter and working towards the center; allow sufficient contact time before clean-up (30 min).

**7. HANDLING AND STORAGE****Precautions for safe handling**

**Advice on Safe Handling** Use aseptic procedures. Decontamination of work surfaces daily, after finishing work and following spills (Solutions of sodium hypochlorite 0.1% or sodium hydroxide 0.1 N readily inactivate the toxin). Standard microbiological practices should be followed. Do not get in eyes, on skin or on clothing. Do not breathe vapors or mist. Use good personal hygiene practices. Eating, drinking and smoking in work areas is prohibited. Remove contaminated

clothing and protective equipment before entering eating areas. Eyewash stations and showers should be available in areas where this material is used and stored. Access to the laboratory is restricted when work is being conducted. A biohazard sign with relevant information should be posted at the entrance. "Toxins in Use - Authorized Personnel Only" should be clearly posted. Frequent and careful hand-washing and laboratory decontamination should be strictly enforced. Ventilation Requirements: Use only with adequate ventilation to control air contaminants to their exposure limits. Required HEPA-filtered vacuum lines.

#### **Conditions for safe storage, including any incompatibilities**

<b>Storage Conditions</b>	All containers must be properly labelled. Store in approved containers and protect against physical damage. Keep containers securely sealed when not in use. Containers that have been opened must be carefully resealed to prevent leakage. Empty containers retain residue and may be dangerous. If frozen suspension, store intact at -70°C. If the item is freeze-dried, store at -20°C. Freeze-dried products are hygroscopic and must be protected from exposure to moisture and oxygen during storage.
<b>Packaging materials</b>	Packaged aseptically in glass screw-capped vials.
<b>Incompatible materials</b>	Strong oxidizing agents.

### **8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

#### **Control parameters**

<b>Exposure Guidelines</b>	This product, as supplied, contains the following hazardous materials with occupational exposure limits established by the region-specific regulatory bodies.
----------------------------	---

#### **Appropriate engineering controls**

<b>Engineering Controls</b>	The health hazard risks of handling this material are dependent on factors, such as physical form and quantity. Site-specific risk assessments should be conducted to determine the appropriate exposure control measures. Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels as low as reasonably achievable.
-----------------------------	---

#### **Individual protection measures, such as personal protective equipment**

<b>Eye/Face Protection</b>	In laboratory, medical or industrial settings, safety glasses with side shields are highly recommended. The use of goggles or full face protection may be required depending on the industrial exposure setting. Contact a health and safety professional for specific information.
<b>Skin and Body Protection</b>	In laboratory, medical or industrial settings, gloves and lab coats are recommended. The use of additional personal protective equipment such as shoe coverings, gauntlets, hood or head coverings may be necessary. Contact a health and safety professional for specific information.
<b>Respiratory Protection</b>	Respirators may be required for certain laboratory and manufacturing tasks if engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (where the exposure limits have not been established). Workplace risk assessments should be completed before specifying and implementing respirator usage. All respirators must conform to specifications for efficiency and performance indicated by OSHA Standard 29 CFR 1910.134.
<b>General Hygiene Considerations</b>	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

### Information on basic physical and chemical properties

<b>Physical State</b>	Liquid.	<b>Odor</b>	Not available.
<b>Appearance</b>	Clear liquid.	<b>Odor Threshold</b>	Not available.
<b>Color</b>	Colorless.		

<u>Property</u>	<u>Values</u>	<u>Remarks</u>
<b>pH</b>	Not available.	
<b>Melting Point/Freezing Point</b>	Not available.	
<b>Boiling Point/Boiling Range</b>	Not available.	
<b>Flash Point</b>	Not available.	
<b>Evaporation Rate</b>	Not available.	
<b>Flammability (solid, gas)</b>	Not available.	
<b>Flammability Limit in Air</b>		
<b>Upper Flammability Limit:</b>	Not available.	
<b>Lower Flammability Limit:</b>	Not available.	
<b>Vapor Pressure</b>	Not available.	
<b>Vapor Density</b>	Not available.	
<b>Specific Gravity</b>	1.98770	
<b>Water Solubility</b>	Readily soluble in water.	
<b>Solubility in Other Solvents</b>	Not available.	
<b>Partition Coefficient</b>	Not available.	
<b>Autoignition Temperature</b>	Not available.	
<b>Decomposition Temperature</b>	Not available.	
<b>Kinematic Viscosity</b>	Not available.	
<b>Dynamic Viscosity</b>	Not available.	
<b>Explosive Properties</b>	Not available.	
<b>Oxidizing Properties</b>	Not available.	

### Other information

<b>Softening Point</b>	Not available.
<b>Molecular Weight</b>	2048 Da
<b>VOC Content (%)</b>	Not available.
<b>Density</b>	16.58816
<b>Bulk Density</b>	Not available.

## 10. STABILITY AND REACTIVITY

### Reactivity

Not available.

### Chemical stability

Relatively stable.

### Possibility of hazardous reactions

Not available.

### Conditions to avoid

Not available.

### Incompatible materials

Strong oxidizing agents.

### Hazardous decomposition products

Not available.

## 11. TOXICOLOGICAL INFORMATION

**Product Information****Acute Toxicity**

Enterotoxigenic *Escherichia coli* (*E. coli*), or ETEC, is an important cause of bacterial diarrheal illness. Infection with ETEC is the leading cause of travelers' diarrhea and a major cause of diarrheal disease in lower-income countries, especially among children.

Chemical Name	Oral LD50	Dermal LD50	Inhalation LC50	Intravenous LD50
Sodium phosphate dibasic, anhydrous ACS 7558-79-4	= 17 g/kg ( Rat )	-	-	-
Sodium dihydrogen phosphate 7558-80-7	= 8290 mg/kg ( Rat )	> 7940 mg/kg ( Rabbit )	-	-
Sodium chloride 7647-14-5	= 3 g/kg ( Rat )	> 10 g/kg ( Rabbit )	> 42 g/m <sup>3</sup> ( Rat ) 1 h	-

**Information on toxicological effects****Symptoms**

Usually mild self-limited illness, producing watery diarrhea, abdominal cramps, low-grade fever, nausea and fatigue.

**Delayed and immediate effects as well as chronic effects from short- and long-term exposure**

**Skin Corrosion/Irritation** No data available.

**Serious Eye Damage/Eye Irritation** No data available.

**Sensitization** No data available.

**Germ Cell Mutagenicity** No data available.

**Carcinogenicity** No data available.

**Reproductive Toxicity** No data available.

**STOT - Single Exposure** Not classified.

**STOT - Repeated Exposure** Not classified.

**Aspiration Hazard** Not applicable.

## 12. ECOLOGICAL INFORMATION

**Ecotoxicity**

Chemical Name	Algae/aquatic plants	Fish	Toxicity to microorganisms	Crustacea
Sodium chloride 7647-14-5		5560 - 6080 mg/L: 96 h Lepomis macrochirus LC50 flow-through 12946 mg/L: 96 h Lepomis macrochirus LC50 static 6020 - 7070: 96 h Pimephales promelas mg/L LC50 static 7050 mg/L: 96 h Pimephales promelas LC50 semi-static 6420 - 6700 mg/L: 96 h Pimephales promelas LC50 static 4747 - 7824 mg/L: 96 h Oncorhynchus mykiss LC50 flow-through		1000: 48 h Daphnia magna mg/L EC50 340.7 - 469.2: 48 h Daphnia magna mg/L EC50 Static

**Persistence and degradability**

No data available.

**Bioaccumulation**

No data available.

**Mobility**

No data available.

**Other adverse effects**

No data available.

**13. DISPOSAL CONSIDERATIONS****Waste treatment methods**

**Disposal of Wastes** Disposal should be in accordance with applicable regional, national and local laws and regulations.

**Contaminated Packaging** Disposal should be in accordance with applicable regional, national and local laws and regulations. Do not reuse container.

**U.S. EPA Waste Number** Not available.

**California Hazardous Waste Codes** Not available.

This product does not contain substances that are listed with the State of California as hazardous waste.

**14. TRANSPORT INFORMATION**

**DOT** Regulated.  
**UN/ID No.** UN3172  
**Proper shipping name** Toxins, extracted from living sources, liquid, n.o.s. (Heat-Stable Enterotoxin).  
**Hazard Class** Class 6.1  
**Packing Group** I

**IATA** Regulated.  
**UN/ID No.** UN3172  
**Proper shipping name** Toxins, extracted from living sources, liquid, n.o.s. (Heat-Stable Enterotoxin).  
**Hazard Class** Class 6.1  
**Packing Group** I

**15. REGULATORY INFORMATION****U.S. Federal Regulations****SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

**SARA 311/312 Hazard Categories**

<b>Acute Health Hazard</b>	No
<b>Chronic Health Hazard</b>	No
<b>Fire Hazard</b>	No
<b>Sudden Release of Pressure Hazard</b>	No
<b>Reactive Hazard</b>	No

**CWA (Clean Water Act)**

This product contains the following substances which are regulated pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42)

Chemical Name	CWA - Reportable Quantities	CWA - Toxic Pollutants	CWA - Priority Pollutants	CWA - Hazardous Substances
Sodium phosphate dibasic, anhydrous ACS 7558-79-4	5000 lb			X

### **CERCLA**

This material, as supplied, contains the following substances regulated as a hazardous substance under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302)

Chemical Name	Hazardous Substances RQs	CERCLA/SARA RQ	Reportable Quantity (RQ)
Sodium phosphate dibasic, anhydrous ACS 7558-79-4	5000 lb		RQ 5000 lb final RQ RQ 2270 kg final RQ

### **U.S. State Regulations**

#### **California Proposition 65**

No component is on the Prop 65 list.

#### **U.S. State Right-to-Know Regulations**

This product contains the following substances regulated by state right-to-know regulations.

Chemical Name	New Jersey	Massachusetts	Pennsylvania
Sodium phosphate dibasic, anhydrous ACS 7558-79-4	X	X	X

#### **U.S. EPA Label Information**

**EPA Pesticide Registration Number** Not applicable.

## **16. OTHER INFORMATION**

<b>Prepared By</b>	IES Engineers
<b>Issue Date</b>	08-Mar-2018
<b>Revision Date</b>	Not applicable.
<b>Revision Note</b>	

#### **Disclaimer**

BEI Resources considers that the information contained in this Safety Data Sheet is accurate, and while it is provided in good faith, it is without warranty of any kind, expressed or implied. The information contained herein is designated only as guidance for safe handling, storage and use of the substance and is not a specification nor does it guarantee any specific properties. Only competent personnel, within a controlled environment should handle all chemicals. BEI Resources is not to be held liable for any loss, injury or damage from contact with the product.
