DATA SHEET

Reagent:	Rabbit Anti-Human APOBEC3G (CEM15) Polyclonal Antibody (IgG)
Catalog Number:	10084
Lot Number:	10
Provided:	100 µg purified antibody.
Description:	High affinity Rabbit Anti-Human APOBEC3G (CEM15) pAb. Purity >95%.
Special Characteristics:	Binds to native and recombinant human CEM15 in ELISA and Western ELISA. ELISA may be performed at 10-100 ng/mL of pAb depending on the amount of immobilized antigen in the assays. Western ELISA required 2-5 µg/mL.
Recommended Storage:	Keep at 4°C for short term storage and -80°C for long term storage. Avoid freeze-thaw cycles as reagent degradation may result.
Contributor:	Immunodiagnosics, Inc.
NOTE:	Acknowledgment for publications should read "The following reagent was obtained through the NIH AIDS Reagent Program, Division of AIDS, NIAID, NIH from Immunodiagnosics: Rabbit Anti-Human APOBEC3G (CEM15) Polyclonal Antibody (IgG)."

ALL RECIPIENTS OF THIS MATERIAL MUST COMPLY WITH ALL APPLICABLE BIOLOGICAL, CHEMICAL, AND/OR RADIOCHEMICAL SAFETY STANDARDS INCLUDING SPECIAL PRACTICES, EQUIPMENT, FACILITIES, AND REGULATIONS. NOT FOR USE IN HUMANS.
