DATA SHEET

Reagent:	Recombinant Human APOBEC3F(<i>E. coli</i>)
Catalog Number:	11097
Lot Number:	4 12A29
Provided:	1mg/ml. Mass/vial: 50µg Diluent: PBS, 0.1% Sarcosyl.
Molecular Weight:	Approximately 46kD.
Purity:	>95% purity as determined by SDS-PAGE, reduced.
Special Characteristics:	This protein binds to anti-CEM15 murine monoclonal antibodies and rabbit polyclonal antibodies as determined by ELISA and Western. Biological Activity: Vif Binding assays pending.
Recommended Storage:	-75°C
Contributor:	DAIDS, NIAID (Produced by ImmunoDiagnostics, Inc.)
NOTE:	Acknowledgment for publications should read "The following reagent was obtained through the NIH AIDS Reagent Program, Division of AIDS, NIAID, NIH from Immunodiagnosics: Recombinant Human APOBEC3F (<i>E.coli</i>)."
Last Updated:	September 29, 2016

ALL RECIPIENTS OF THIS MATERIAL MUST COMPLY WITH ALL APPLICABLE BIOLOGICAL, CHEMICAL, AND/OR RADIOCHEMICAL SAFETY STANDARDS INCLUDING SPECIAL PRACTICES, EQUIPMENT, FACILITIES, AND REGULATIONS. NOT FOR USE IN HUMANS.
