DATA SHEET

Reagent:	Recombinant Human APOBEC3B(<i>E. coli</i>)
Catalog Number:	11099
Lot Number:	2 5MY27
Provided:	1mg/ml. Mass/vial: 50 µg. Diluent: PBS, 0.1% Sarcosyl.
Molecular Weight:	Approximately 46kD.
Purity:	>95%
Special Characteristics:	This protein binds to anti-CEM15 murine monoclonal antibodies and rabbit polyclonal antibodies as determined by Elisa and Western Elisa. Biological Activity: Vif Binding assays pending.
Recommended Storage:	-75°C
Contributor:	ImmunoDiagnostics, Inc.
NOTE:	Acknowledgment for publications should read "The following reagent was obtained through the NIH AIDS Reagent Program, Division of AIDS, NIAID, NIH from Immunodiagnosics: Recombinant Human APOBEC3B (<i>E.coli</i>)".
Last Updated:	September 29, 2016

ALL RECIPIENTS OF THIS MATERIAL MUST COMPLY WITH ALL APPLICABLE BIOLOGICAL, CHEMICAL, AND/OR RADIOCHEMICAL SAFETY STANDARDS INCLUDING SPECIAL PRACTICES, EQUIPMENT, FACILITIES, AND REGULATIONS. NOT FOR USE IN HUMANS.
