DATA SHEET

Reagent: Anti-Human APOBEC3F Polyclonal

Catalog Number: 11226

Lot Number: 5AT5/7J4

Provided: 50 µg.

Description: High affinity Rabbit Anti-Human APOBEC3F (CEM15) pAb.
Application: ELISA, Western ELISA Immunoprecipitation.

Special Characteristics: Binds to C-termines of native and recombinant human ABPOBEC3F in ELISA and Western ELISA.

Recommended Storage: Keep at 4°C for short term storage and -80°C for long term storage. Avoid freeze-thaw cycles as reagent degradation may result.

Contributor: ImmunoDiagnostics, Inc.

NOTE: Acknowledgment for publications should read "The following reagent was obtained through the NIH AIDS Reagent Program, Division of AIDS, NIAID, NIH from Immundiagnosics:Anti-Human APOBEC3F Polyclonal."

ALL RECIPIENTS OF THIS MATERIAL MUST COMPLY WITH ALL APPLICABLE BIOLOGICAL, CHEMICAL, AND/OR RADIOCHEMICAL SAFETY STANDARDS INCLUDING SPECIAL PRACTICES, EQUIPMENT, FACILITIES, AND REGULATIONS. NOT FOR USE IN HUMANS.
