

HTLV-I Transformed Rabbit Cell Lines

Cell Line	Cat. #	Lot	Derivation	Characteristics
RH/66A	1271	2 12/23/91	MT-2	Semi-adherent; weakly susceptible to HIV-1 infection. Supplement with 50 U/ml rIL-2.
RH/K30	1274	2 10/30/91	MT-2	Grows in clumpy suspension; susceptible to HIV-1 infection.
RH/K34	1276	2 12/23/91 5 1604	RHT-16 RHT-16	Semi-adherent; weakly susceptible to HIV-1 infection. High doses induce lethal leukemia-like disease in rabbits.
