DATA SHEET

Reagent:	Human CD4-Ig Recombinant Protein
Catalog Number:	13058
Lot Number:	170155
Provided:	250 µg of purified protein at 1.00 mg/mL in PBS buffer, pH 7.2, sterile filtered. Endotoxin= 0.1 EU/mg by LAL method
Purity:	87.72% by HPLC
Description:	A full length protein derived from human CD4-Ig.
Special Characteristics:	This receptor protein is produced in a Expi293F expression system and purified by one-step purification by Protein A CIP column. Sequence: Protein sequence
Recommended Storage:	Keep at 4°C for short term storage and -80°C for long term storage. Avoid freeze-thaw cycles as reagent degradation may result.
Contributor:	Dr. Xueling Wu
