DATA SHEET

Reagent: *Mycobacterium avium*85B Antiserum

Catalog Number: 2916

Lot Number: 1 020395

Release Category: A

Provided: 200 µl lyophilized antiserum.

Special Characteristics: Raised against *E. coli* recombinant aAg85B of *M. avium*, containing the mature aAg85B protein sequence fused to the leader peptide His₆-Gly thr Asp₃ -Lys Gly at the amino end (designated His-aAg85B).
Host: Rabbit
Titer: Used successfully in Western blots at 1:1000-1:2000. Shows half maximal binding at 1:40,000 in solid phase ELISA.

Recommended Storage: -70°C.

Contributor: Division of AIDS, NIAID. Produced by BioTechnology General.

NOTE: Acknowledgment for publications should read "The following reagent was obtained through the NIH AIDS Reagent Program, Division of AIDS, NIAID, NIH: *Mycobacterium avium* 85B Antiserum." Also include the references cited above in any publications.
