DATA SHEET

Reagent: Anti-Human CCR5 Monoclonal (45523)

Catalog Number: 4089

Lot Number: 120162

Release Category: A

Provided: 100 µg purified protein from ascites, resuspended in PBS.

Description: This antibody selected for ability to react specifically with human CCR5 transfectants, but not the parental cell line as detected by flow cytometry. It does not cross-react with CCR1, CCR2, or CCR3. Can be used to detect CCR5 present on stimulated human PBMCs only after cells are fixed with 2% formaldehyde. It does not detect CCR5 on unfixed human PBMCs.

Host: Balb/c mouse splenocyte.

Special Characteristics: Specificity: human CCR5
Immunogen: CCR5 transfectants
Applications: Immunohistochemistry, Flow Cytometry
Commercially available at R&D Systems (Cat# MAB181)

Recommended Storage: Keep at 4°C for short term storage and -80°C for long term storage. Avoid freeze-thaw cycles as reagent degradation may result.

Contributor: DAIDS, NIAID

Isotype: Mouse IgG₂B
