DATA SHEET

Reagent: HIV-1_{SF2} p24 Antiserum

Catalog Number: 4250

Lot Number: 060880

Provided: 500 µl undiluted antiserum

Host: Rabbit.

Titer: >50,000 in WB. >100,000 in ELISA. May yield high background if assay conditions are not optimized.

Special Characteristics: Raised against HIV-1_{SF2} p24 (expressed in yeast).

Recommended Storage: -70°C.

Contributor: DAIDS, NIAID. Produced by BioMolecular Technologies.

NOTE: Acknowledgment for publications should read "The following reagent was obtained through the NIH AIDS Reagent Program, Division of AIDS, NIAID, NIH: HIV-1_{SF2} p24 Antiserum." Also include the references cited above in any publications.

ALL RECIPIENTS OF THIS MATERIAL MUST COMPLY WITH ALL APPLICABLE BIOLOGICAL, CHEMICAL, AND/OR RADIOCHEMICAL SAFETY STANDARDS INCLUDING SPECIAL PRACTICES, EQUIPMENT, FACILITIES, AND REGULATIONS. NOT FOR USE IN HUMANS.
