DATA SHEET

Reagent: EIA V Tat Antiserum

Catalog Number: 4357

Lot Number: 2 99230

Provided: 100 µl

Host or Host Site: Rabbit.

Titer: 1:10 in WB.

Special Characteristics: Raised against a synthetic peptide (SLRKKNKQRLK) corresponding to the EIA Tat protein. Detects a 9 kDa Tat protein in WB at low dilutions. Does not work in cell immunostaining assays.

Recommended Storage: Keep at 4°C for short term storage and -80°C for long term storage. Avoid freeze-thaw cycles as reagent degradation may result.

Contributor: Dr. Wendy Maury.

NOTE: Acknowledgment for publications should read "The following reagent was obtained through the NIH AIDS Reagent Program, Division of AIDS, NIAID, NIH: EIA V Tat Antiserum from Dr. Wendy Maury."

ALL RECIPIENTS OF THIS MATERIAL MUST COMPLY WITH ALL APPLICABLE BIOLOGICAL, CHEMICAL, AND/OR RADIOCHEMICAL SAFETY STANDARDS INCLUDING SPECIAL PRACTICES, EQUIPMENT, FACILITIES, AND REGULATIONS. NOT FOR USE IN HUMANS.
