

DATA SHEET

For research use only. Not for use in humans.

Reagent:	Polyclonal Anti-Human Tripartite Motif-Containing Protein 5 Alpha (TRIM5 α ; IN1) (antiserum, Rabbit)
Catalog Number:	ARP-11240
Lot Number:	160172
Release Category:	A
Provided:	Each vial of ARP-11240 contains approximately 100 micrograms of purified polyclonal antibody at a concentration of 1 mg per mL in PBS containing 0.02% sodium azide.
Description:	ARP-11240 is a polyclonal antibody raised against a synthetic peptide corresponding to amino acids near the mid-region of human TRIM5 α (GenPept: NP_149023).
Host:	Rabbit
Titer:	The user should determine the optimal concentration for any application.
Special Characteristics:	ARP-11240 was purified by affinity chromatography using a peptide column.
Recommended Storage:	Keep at 4°C only for short term storage and -80°C for long term storage. Avoid freeze-thaw cycles as reagent degradation may result.
Contributor:	DAIDS, NIAID (Produced by ProSci Inc.)
Citation:	Acknowledgment for publications should read "The following reagent was obtained through the NIH HIV Reagent Program, Division of AIDS, NIAID, NIH: Polyclonal Anti-Human Tripartite Motif-Containing Protein 5 Alpha (TRIM5 α ; IN1) (antiserum, Rabbit), ARP-11240, contributed by DAIDS, NIAID."
Biosafety Level: 1	Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. Biosafety in Microbiological and Biomedical Laboratories . 6th ed. Washington, DC: U.S. Government Printing Office, 2020; see www.cdc.gov/biosafety/publications/bmb15/index.htm .
Disclaimers:	<p>You are authorized to use this product for research use only. It is not intended for human use.</p> <p>Use of this product is subject to the terms and conditions of the NIH HIV Reagent Program Material Transfer Agreement (MTA). The MTA is available on our Web site at www.hivreagentprogram.org.</p> <p>While the NIH HIV Reagent Program uses reasonable efforts to include accurate and up-to-date information on this product sheet, neither ATCC® nor the U.S. Government makes any warranties or representations as to its accuracy. Citations from scientific literature and patents are provided for informational purposes only. Neither ATCC® nor the U.S. Government warrants that such information has been confirmed to be accurate.</p> <p>This product is sent with the condition that you are responsible for its safe storage, handling, use and disposal. ATCC® and the U.S. Government are not liable for any damages or injuries arising from receipt and/or use of this product. While reasonable effort is made to ensure authenticity and reliability of materials on deposit, the U.S. Government, ATCC®, their suppliers and contributors to the NIH HIV Reagent Program are not liable for damages arising from the misidentification or misrepresentation of products.</p>

Use Restrictions:

This material is distributed for internal research purposes only. This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before first commercial sale.
