Human Respiratory Syncytial Virus, B1

Catalog No. NR-56243

For research use only. Not for use in humans.

Contributor:
National Institute of Allergy and Infectious Diseases (NIAID),
National Institutes of Health (NIH)

Manufacturer:
BEI Resources

Product Description:
Virus Classification: Human Orthopneumovirus, Human respiratory syncytial virus
Species: Human respiratory syncytial virus B
Strain/Isolate: B1
Original Source: Human respiratory syncytial virus (RSV), B1 was developed by multiple passages in Vero cells from an original human isolate in 1985, in West Virginia, USA.1,2

Material Provided:
Each vial contains approximately 1.0 mL of cell lysate and supernatant from Cercopithecus aethiops kidney cells (Vero) infected with RSV, B1.

Note: If homogeneity is required for your intended use, please purify prior to initiating work.

Packaging/Storage:
NR-56243 was packaged aseptically in screw-capped plastic cryovials. The product is provided frozen and should be stored at -60°C or colder immediately upon arrival. For long-term storage, the vapor phase of a liquid nitrogen freezer is recommended. Freeze-thaw cycles should be avoided.

Growth Conditions:
Host: Cercopithecus aethiops kidney cells (Vero; ATCC® CCL-81™)
Growth Medium: Eagle’s Minimum Essential Medium containing Earle’s Balanced Salt Solution (ATCC® 30-2003™), supplemented with 2% fetal bovine serum (ATCC® 30-2020™), or equivalent
Infection: Cells should be 80% to 90% confluent
Incubation: 5 to 7 days at 37°C and 5% CO2
Cytopathic Effect: Syncytia formation and cell disruption

Citation:
Acknowledgment for publications should read "The following reagent was obtained through BEI Resources, NIAID, NIH: Human Respiratory Syncytial Virus, B1, NR-56243."

Biosafety Level: 2

Appropriate safety procedures should always be used with this material. Laboratory safety is discussed in the following publication: U.S. Department of Health and Human Services, Public Health Service, Centers for Disease Control and Prevention, and National Institutes of Health. Biosafety in Microbiological and Biomedical Laboratories, 6th ed.

Use Restrictions:
This material is distributed for internal research, non-commercial purposes only. This material, its product or its derivatives may not be distributed to third parties. Except as performed under a U.S. Government contract, individuals contemplating commercial use of the material, its products or its derivatives must contact the contributor to determine if a license is required. U.S. Government contractors may need a license before first commercial sale.
