

***Lactobacillus crispatus*, Strain EX849587VC07**
Catalog No. HM-375
Product Description:

Lactobacillus crispatus (*L. crispatus*), strain EX849587VC07 was isolated in March 2010 from the human mid-vaginal wall of a patient in Richmond, Virginia, USA. HM-375 was produced by inoculation of BEI Resources seed lot 59852202 into *Lactobacilli* MRS broth and grown for 1 day at 37°C in an aerobic atmosphere with 5% CO₂. The material from the initial growth was passaged once in *Lactobacilli* MRS broth for 1 day at 37°C in an aerobic atmosphere with 5% CO₂ to produce this lot. Quality control testing was completed under propagation conditions unless otherwise noted.

Note: Quality control of HMP material is only performed to demonstrate that the material distributed by BEI Resources is identical to the deposited material. It should not be considered a complete characterization of the deposited organism.
